

LOGISTICS & GPS TECHNOLOGY: Return on Investment?

CCS Innovation in Logistics Ltd are a Christchurch based **independent** logistics consultancy. We specialise in the use of GPS and logistics technology to promote improvement within your transport fleet

Are your systems working for you?

- "It's allowed us to identify and target excessive engine idling, saving us fuel."
- "By gaining visibility of our turnaround times, we worked with our clients and reduced the time taken, giving us additional time for deliveries each day"
- "With the improved fleet visibility we can ensure we utilise our vehicles better, saving maintenance costs later on"

OR

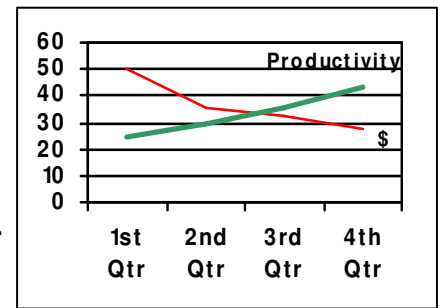

- "We're too busy to use all the reports"
- "The figures are different to our old system so we get the stats from there instead"
- "Its hard to spot trends in the system"
- "We use it when we want to know where our trucks are"
- "Not sure what all the information means"

CCS Innovation in Logistics can help you to utilise your current system to identify where the opportunities within your operation lie

We can assist you to;

- ★ **Identify the opportunities**
Your system data and reports combined with your experience can identify the root cause of the issues
- ★ **Quantify the problem**
Choose or create the right reports to identify the size of the issue and prioritise which issues to fix first.
- ★ **Implement change**
Whether it be a programme of change, training material or high level exception reports, we can help deliver the change to realise the benefits.
- ★ **Gain tangible results and increase profit**
Through clear goals and deliverables, monitor the progress and ensure improvements are delivered.

Make the system you've already bought start paying for itself

FAILING TO PLAN..... IS PLANNING TO FAIL

Do you need:

Return on investment

Exception reports to highlight the issues

A single issue resolving, or a programme of change

To reconcile GPS reports to your in-house system

A better understanding of how your system can work for *you*

Make the system work for you !

CCS Innovation in Logistics' Customer Charter

CCS Innovation in Logistics;

- ★ Is an **independent** consultancy
- ★ Does not receive commission or incentives from any supplier
